

Scope of Work

1. Group#: 16 (Vince Wu and Ryan Liu)
2. Yes, we have met.
3. Yes, we have communicated with Albert.
4. Not yet. However, we will most likely focus on NFL or NBA and try to use the WP model to find the best combination of players on court, or the best runs that give higher WP (e.g. run/pass in football in some specific situation)

5. Plan:

Vince will collect data and perform text parsing/feature extraction by Nov 23.

Ryan will review references and develop a preliminary EDA strategy by Nov 23.

Vince and Ryan will complete individual EDA assignments by Nov 26.

Ryan will write the draft version of milestone #3 with summary of finding by Nov 27.

Vince will write the final version of milestone #3 and submit to Canvas by Nov 28.
